## DETAILED ACTION

### *Election/Restrictions*

1. Claims 1-12 and 23 are allowable. The restriction requirement between two inventions as set forth in the Office action mailed on June 02, 2008, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 15-22 and 24, directed to a method of thermoforming an object no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

### *Allowable Subject Matter*

2. Claims 1-12 and 15-24 are allowed over the prior art of record.
3. The following is an examiner's statement of reasons for allowance:

Dickson (4,137,031) and Takashima (5,762,970) disclose the supporting members for handling the parison or plastic article prior and during molding; however, these references fails

Art Unit: 1791

to disclose holding means for holding the article after it has been formed against the countermold while the base portion and the undercut forming portions are removed from the countermold.

Another close prior art, Sauer (4,327,052), discloses a process for making containers, comprising a base portion, undercut forming portions, a countermold with a piston. However, Sauer fails to disclose a holding means for holding the molding object relative to the countermold while the base portion is spaced apart from the countermold.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to THU KHANH T. NGUYEN whose telephone number is (571) 272-1136. The examiner can normally be reached on 6:30am-4:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yogendra Gupta can be reached on 571-272-1316. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
